## Welcome to Our Office

**Our goal at South Calgary Endodontics is to provide you with optimal endodontic care in a professional and comfortable environment.**

### Health history

All patients or guardians of minor patients will be asked to complete a health record chart.

### Consultation

A diagnostic x-ray will be taken at the consultation for our records. This image will remain current for 6 months' time. The Doctor will examine and test the teeth in question and the surrounding tissues. Treatment of the case will be discussed.

### Endodontic Treatment Objectives

1. Relief of pain, if present.
2. Removal of pulp from roots of the tooth.
3. Disinfection of root and surrounding bone-this phase of treatment may take several appointments if infection is severe.
4. Complete filling of root canals
5. Root canal treatment (RCT) is an attempt to retain a tooth that may otherwise require extraction (removal). Although RCT has a high degree of success, it cannot be guaranteed.
6. No tooth will be treated unless there is a good chance of success. While there is no certainty concerning healing, we expect this to occur in most cases. If the chances are less than normal, you will be informed.
7. Once treatment is completed, we will refer you back to your General Dentist for the final restoration. **This is the patient's responsibility and necessary to safeguard the tooth.**

### Fees

1. There will be a consultation fee charged.
2. Fees will vary depending on the difficulty/complexity of the treatment
3. Fees are quoted in advance of the treatment. If this has been neglected, please do not hesitate to ask.
4. Fees, once quoted remain the same except:
  - a) If retreatment or surgery becomes necessary
  - b) If multiple appointments are cancelled, prolonging the treatment
  - c) If appointments are broken without proper notification
  - d) Complications may arise during treatment, fees will reflect such changes

### Method of Payment

Since this office does not do any direct billing, payment is due at the time of treatment.

### Dental Insurance

As a courtesy, insurance forms will be completed to assist you in receiving your reimbursement. We will submit the claim on your behalf and you will collect from the insurer. You are directly responsible to us for the obligation of payment.
